COLLEGE GOVT ARTS AND SCIECE COLLEGE PERUMBAKKAM.

PROJECT TITLE

Employee Performance Analysis using Excel

AGENDA

1.Problem Statement
2.Project Overview
3.End Users
4.Our Solution and Proposition
5.Dataset Description
6.Modelling Approach
7.Results and Discussion
8.Conclusion

PROBLEM STATEMENT

WHAT IS NOT A PROBLEM?

Lack of study in this area

Studies were carried out elsewhere but not done locally

Studies were carried out using a particular type of sample but mine will use a different type of sample

PROJECT OVERVIEW

I source on employee datest from the EDEDUNET website appiled colour coding to relevent topics and removed blank cells using conditional foratiing and filters. Employees ratings were converted from numerical to verbal catagories using a formula.

WHO ARE THE END USERS?

Types of end users

Nonprogramming end users
Comm and level end users
Programming level end users

Functional support personnel

End user computing support
personnel
Data processing programmers
in end user languages

OUR SOLUTION AND ITS VALUE PROPOSITION

Target audience whose problems will be solved by your product or service

Benefits and features how are they different from your competitors

productor service what is your brand promise

Excellent execution can you deliver on your value proposition.

Dataset Description

A dataset is a collection of organized data that
can be used

Analysiss,processing,or other purposes.

Datasets can contain many different types of data,

Numerical values,text,images,audio
recordings,and basic descriptions

THE "WOW" IN OUR SOLUTION

- inweek-over -week (wow) anallysis shows how a given varcreases or decreases from one week to the next.

- For xample, a 4% wow sales growth ould imply that the current week sales, increased by 4% percent when compared with the previous week sales.
MODELLING

· Modeling involve

Creating a tiny, functioning volcano is an example of modaling.

Teachers use modeling

When they have a class election that represent a larger one, like a presidential election.

RESULTS

conclusion

* SUMMARISE
  * MAKE A RECOMMENDARION
  * RROVIDE FUTURE DIRECTIONS
  * USE VISUAL AIDS
  * AVOID SAMPL STATEMENTS
  * THANK YOU AUDIENCE

In this, article we explain why presentation conclusions are important list ways to end one, give tips for effective closing and provide famous examples of powerful closing remarks.
